3 Subscriptions where a contribution has been granted to purchase a terminal

Telenor may grant a contribution to purchase a new mobile phone provided that the customer undertakes to accept an agreed monthly minimum usage for the

business subscription in a period of interminability of 12 or 24 months. The price of the mobile phone shall be determined by the in-terminability period accepted by the customer.

If the invoiced usage after discount has been deducted is less than DKK 99 in one month, the difference up to the DKK 99 will be charged. Usage cannot be carried forward from one month to the next.

By expiry of the accepted interminability period, the requirement concerning minimum usage shall terminate. The subscriber may once again be granted a contribution to purchase a mobile phone subject to entering into a new agreement on minimum usage during a period of interminability.

22 WiFi-calling

WiFi-calling is a feature, which makes it possible to make mobile telephony calls while connected to a WiFi-network with an internet connection. This feature is included in all

Telenor's mobile telephony subscriptions.

WiFi-calls are rated in the same way as calls made via the cellular network.

WiFi-calling requires a mobile phone which supports WiFi-calling. The WiFi-calling feature must be activated on the mobile phone.

WiFi-calling only works on WiFi-networks in Denmark.

Please note that the quality of a WiFi-call is dependent on the quality of the WiFi-network that the mobile phone is connected to. If, for example, the WiFi-signal is weak, or there are other users active on the WiFi-network, it may compromise the quality of the WiFi-call.

If you start a WiFi-call while connected to a WiFi-network, but move out of range of the WiFi-network during the call, you will be able to continue your call on the 4G network, provided that 4G coverage is available, and provided that your mobile phone supports 4G-calling (VoLTE). If 4G coverage is not available, your call will be terminated, and you will have to call again.

Telenor reserves the right to, at any time, remove the possibility to make WiFi-calls.
