

# Surf Control Abroad

**Secure and flexible** use of mobile data abroad

## Stay flexible and agile on your business trips

As of 1 July 2010, we have activated the Surf Control Abroad service on all Telenor mobile subscriptions and mobile broadband connections. This complies with a recent EU law requiring carriers to place a ceiling on mobile data when used abroad.

With Surf Control Abroad you and your employees can check your emails, send MMS messages and browse the net – without the risk of heavy bills. The standard ceiling is fixed at DKK 360 per month ex-VAT. However, we do offer various ceilings ranging from DKK 800 per month ex-VAT up to unlimited usage, should you require more data.

### How Surf Control Abroad works

- -Standard ceiling of DKK 360 per month ex-VAT on mobile data use abroad.
- -You will receive a text reminder when you reach 80 % of your maximum.
- -When you reach your limit, we will temporarily suspend your mobile data connection.
- This does not affect your voice subscription or ability to send text messages.
- You can remove the temporary suspension by texting **surfcontrol remove** to 1221\*.

### Manage your costs with Surf Control Abroad

- Automatic ceiling of DKK 360 per month ex-VAT on data use abroad.
- Applies to all mobile subscriptions and mobile broadband connections.
- Effective worldwide on mobile data use – both within and outside the EU.

#### Check your balance

Text **Surfcontrol** to 1221\*

### Choose a higher ceiling

- DKK 800 per month ex-VAT
- DKK 1,000 per month ex-VAT
- DKK 2,000 per month ex-VAT
- DKK 4,000 per month ex-VAT
- Unlimited data use

\*Text messages to 1221 are free of charge.
